KAKURO

How to play: Fill in the squares using any number from 1 to 9, without repeating any numbers in a run line (row or column blocked off by black boxes). The numbers in each horizontal run line must add up to the sum shown in the black box to its left (above the diagonal). The numbers in each vertical run line must add up to the sum shown in the black box at its top (below the diagonal).

Total Concentration

The blank squares below should be filled with whole numbers between 1 and 30 inclusive, any of which may occur more than once, or not at all. The numbers in every horizontal row add up to the totals on the right, as do the two long diagonal lines; whilst those in every vertical column add up to the totals along the bottom.

Word-Twist 1

Celestial Cinema

This is a Word-Find puzzle with a twist! The words on the list below (all films with the name of a celestial body in the title) are NOT found in straight lines in the diagram. Instead, each entry twists and turns several times, zigzag fashion. Items never cross each other. We have circled one word to get you started.

One of architect Frank Lloyd Wright's acclaimed designs, Fallingwater is a house built over the Bear Run waterfall in Mill Run, Pennsylvania. Wright designed it in 1936 for Pittsburgh department store owner Edgar J. Kaufmann, for whom the falls were a focal point for family activities. Fallingwater was featured on the cover of "Time" magazine in 1938.
